

## MASTER SCRAPE

### CODE

**4405-1207** (Open Top)  
**4406-1207** (with Carpet Insert)

Modular multi zone entrance mat system consisting of revolutionary interlocking tiles that create a seamless connection for fast installation. No gluing or permanent fixtures, this matting is suitable for recessed doorwells or use with the attachable safety ramps for loose lay installations. A range of different coloured carpet inserts allow for a large variety of colours and customization while providing excellent absorption of water to dry shoes and prevent slips and falls. The Master Scrape smooth surface makes it suitable for wheeled access by trolleys, wheelchairs, carts, suitcases etc.

### Recommended use:

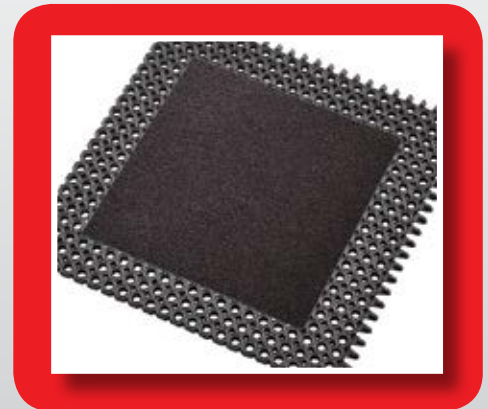

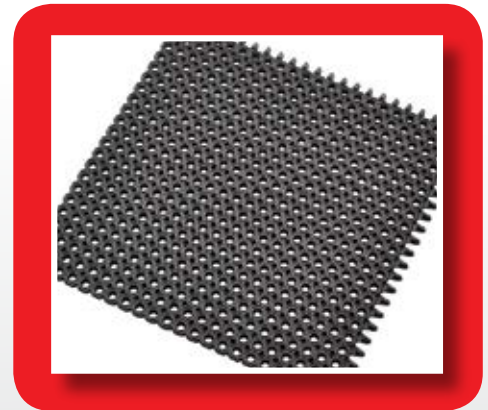

Out or indoor – heavy foot traffic areas  
Suitable for interior and exterior recessed matwell frames  
Use with bevelled ramp accessories for loose lay situations

### Specifications:

- Natural rubber interlocking tile
